

Table of Contents

CHEMICAL ROLES	3
<i>BIOCHEMICAL ROLE</i>	3
<i>ARTIFICIAL ROLE</i>	4

CHEMICAL ROLES

- Transducer
- Catalyst, enzyme , substrate
- solute , solvent
- reagent , reactant
- product , by product
- Ion, cation , anion
- acid , base , neutral

BIOCHEMICAL ROLE

- primary messenger
- secondary messenger
- chemical messengers
- neurotransmitters
- Growth factors
- Active Structure , which acts
 - Cellular structures
 - animate , moving
 - Vegetative role
 - cognitive role
 - Molecular Structures
 - general names
 - ligand
 - agonist
 - excitation , Stimulation
 - Antagonist
 - Inhibition , block
 - [Depression](#)
- Passive structure , on which it acts
 - Molecular Structures
 - Receptors
 - sensory receptors
 - membrane receptors
 - sensors
 - Cellular structures
 - dead , immovable
- Modes
 - replacement
 - cause
 - Signal , stimulus
 - End
 - purpose
 - harm
 - cytotoxic
 - toxins

- protection
 - antigen
 - antibodies

ARTIFICIAL ROLE
