# MANTRAKSHAR FEELING

- delusion
- outline of self
- Perception
- thought disorders

## THEORY OF IDEA TO ACTION

| COGNITION    | AFFECT    | CONATION  |
|--------------|-----------|-----------|
| To know      | To feel   | To act    |
| thinking     | feeling   | willing   |
| thought      | emotion   | Volition  |
| epistemology | esthetics | Ethics    |
| know         | caring    | Doing     |
| Instinct     |           | Intention |

## SENSATION AND PERCEPTION

### Perception of touch

#### Sensory modalities

| SIGN         | MANTRAKSHAR                                                                         | ETYMOLOGY                                                                                        | DEFINITION                              |
|--------------|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|-----------------------------------------|
| itching      |  |                                                                                                  |                                         |
| Numbness     |  |                                                                                                  |                                         |
| palpitations |  | From palpitō (“throb, pulsate, palpitate”), frequentative of palpō (“touch softly, stroke, pat”) |                                         |
| Paresthesia  |  | From Ancient Greek παρά (pará, “beside, abnormal”) + αἴσθησις (aísthēsis, “sensation”).          |                                         |
| Tingling     |  |                                                                                                  | A tingling sensation; pins and needles. |

#### Light and deep pressure

#### Vibration

#### Itch

## **Nociception**

- [Pain](#)
- Headache
- Stomachache
- Chest [pain](#)
- Backpain
- [Eye pain](#)
- [Ear pain](#) (otalgia)
- arthralgia
- myalgia
- Painful urination
- proctalgia fugax
- painful sexual intercourse
- pelvic [pain](#)
- pleuritic chest [pain](#)
- shoulder [pain](#)
- dysphagia
- odynophagia
- Intermittent claudication
- [leg pain](#)
- Cardialgia
- Neck [pain](#)

## **Thermoception**

## **Haptic perception**

Size , shape , material

## **Vision**

Visual sensation

## **Visual Perception**

Disorders of visual perception are visual hallucinations in which the [brain](#) wrongly interprets the image.

## **Sensory modality**

[Light](#) is the sensory or stimulus modality for vision.

## **Face recognition**

## **Lip reading**

## Chemoreception

### Taste sensation

Gustatory hallucinations

- Sweet
- Bitter

### Smell

## Audioception

Speech / language perception

## Stretch sensation

### Proprioception

### Muscle weakness

| SIGN     | MANTRAKSHAR                                                                         | ETYMOLOGY                                                                   | DEFINITION |
|----------|-------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|------------|
| asthenia |  | from ἀ- (a-, “not, un-”) + σθένος (sthénos, “strength”).                    |            |
| Tired    |  |                                                                             |            |
| Weak     |  |                                                                             |            |
| malaise  |  | from mal- (“bad, badly”) + aise (“ease”)                                    |            |
| fatigue  |  | *fatis (weariness) + -igō, the latter a suffixal form of agō (“I do, act”). |            |
| hunger   |  |                                                                             |            |
| Thirsty  |  | Sanskrit तृष्णा (tṛṣṇā, “desire; thirst”), Sanskrit तृष्यति (tṛṣyati)       |            |

| SIGN    | MANTRAKSHAR | ETYMOLOGY                            | DEFINITION |
|---------|-------------|--------------------------------------|------------|
| SIGN    | MANTRAKSHAR | ETYMOLOGY                            | DEFINITION |
| Chills  |             |                                      |            |
| Sick    |             |                                      |            |
| shivers |             |                                      |            |
| Sweaty  |             | Latin sudor, Sanskrit स्वेद (svéda), |            |

## Visceroceptors

- Bloating
- Belching
- Eructation
- Flatulence

## Equilibrioception

### Mental weakness

| SIGN         | MANTRAKSHAR | ETYMOLOGY                                                                           | DEFINITION                         |
|--------------|-------------|-------------------------------------------------------------------------------------|------------------------------------|
| Dizzy        |             |                                                                                     |                                    |
| Sleepy       |             |                                                                                     |                                    |
| drowsiness   |             | Gothic 𐌳𐌹𐌺𐌹𐌸𐌰𐌶𐌴𐌹𐌸𐌰 (driusan, "to fall; fall down").                                 |                                    |
| SIGN         | MANTRAKSHAR | ETYMOLOGY                                                                           | DEFINITION                         |
| Black out    |             |                                                                                     | A temporary loss of consciousness. |
| SIGN         | MANTRAKSHAR | ETYMOLOGY                                                                           | DEFINITION                         |
| Nauseated    |             | from Ancient Greek ναυσία (nausía, "sea-sickness"), from ναῦς (naûs, "ship").       |                                    |
| Vertigo      |             | verticō, from vertex ("whirlwind, top") + -ō, later reanalyzed as vertō ("to spin") |                                    |
| irritability |             |                                                                                     |                                    |
| Light-headed |             |                                                                                     |                                    |

| SIGN          | MANTRAKSHAR                                                                         | ETYMOLOGY                                                               | DEFINITION |
|---------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------|------------|
| Pain          |    |                                                                         |            |
| SIGN          | MANTRAKSHAR                                                                         | ETYMOLOGY                                                               | DEFINITION |
| tinnitus      |    | Perfect passive participle of tinniō (“ring, jingle, clink”).           |            |
| SIGN          | MANTRAKSHAR                                                                         | ETYMOLOGY                                                               | DEFINITION |
| confabulation |    | From fābula (“narrative, conversation”) + -or, from for (“speak, say”). |            |
| confusion     |    | From con- (“with, together”) + fundō (“pour”).                          |            |
| illusion      |    | from in- (“at, upon”) + lūdere (“to play, mock, trick”)                 |            |
| SIGN          | MANTRAKSHAR                                                                         | ETYMOLOGY                                                               | DEFINITION |
| Satiety       |    | From satis (“enough”) + -tās.                                           |            |
| SIGN          | MANTRAKSHAR                                                                         | ETYMOLOGY                                                               | DEFINITION |
| delusion      |  | From dē- + lūdō. ( play)                                                |            |
| hallucination |  | Ancient Greek ἀλύω (alúō, “to wander in mind, to roam”),                |            |

## Chronoception

## Osmoreception
