## STUDY OF DIFFERENT FIELDS

- Study based on the level
  - General Study
    - Language study , terminology
  - Special Study
    - Specialization
- Field concerned with the study of structures of magnitude on the basis of levels
  - natural magnitudes
    - general name is biology
      - based on size
        - microbiology
          - STUDY OF THE EXTERNAL PARTICLES OF LIFE ENDANGERING HUMAN LIFE
        - nanobiology
      - molecular level is biochemistry , PARTICLES OF HUMAN LIFE
        - BIOCHEMISTRY ( particles + body + study )
      - cellular level is cytology
      - tissue level is histology
      - Organ level is Anatomy
        - STUDY OF HUMAN BODY PICTOGRAMS OR PICTURES
          - Anatomy ( cut + body + study )
      - Species level is Evolutionary biology
    - Artificial Magnitude
      - General name is Technology , Instrumentology
        - nanotechnology
  - Field concerned with the errors and diseases , IRREGULARITIES IN THE ARROWS AND WHEELS
    - natural errors
      - pathology , disease
    - Artificial errors
      - Technopathology
  - Field concerned with the function or operation or mechanism , STUDY OF ARROWS AND WHEELS
    - Natural functions

- **PHYSIOLOGY ( cut + wheel + body + study )**

- STUDY OF EXTERNAL PARTICLES NEEDED FOR HUMAN LIFE
  - PHARMACOLOGY
  - MEDICINE
- STUDY OF EXTERNAL INVASIVE INTERVENTIONS OF HUMAN BODY
  - SURGERY
