1. **light** , photo , phos , shine , splendid , illumination , brilliant , luminous, 3 A = apollo B = brilliant , bright C = D = E = H = helios I = intensity L = **light** , lamination , luminous, lucifer M = P = photo , phospho , S = shine , **sun** , सूर्य , **Noun** photon , **sun** , helios ,

MEDICAL

- Phosphorus , helium
- The whole world of biochemistry revolves around phosphate ... bond formation and break
- 1.glucose - 6 phosphate , fructose - 6 phosphate , glyceraldehyde - 3 phosphate , phosphoenol pyruvate

PHYSICS

- 1.velocity of **light** formula
- 2.reflection of **light** and refraction of **light**
- 3.ray optics ..

FICTONYM

- 1.magical lights
- 2.shining power
- 3.fictional lights
- 4.dissapear
- 5.camouflage
- 6.appear
- 7.invisible ..
