SYSTEMA CARDIOVASCULARE (CARDIOVASCULAR SYSTEM)	3
--	----------

SYSTEMA CARDIOVASCULARE (CARDIOVASCULAR SYSTEM)

Anatomical Terminology :[CARDIOVASCULAR SYSTEM](#)

- [Atrium](#)
- [Ventricles](#)
- [Development of circulatory system](#)
- [Aorta](#)
- [Pericardium](#)
- [Coronary arteries](#)
- [SURFACE ANATOMY](#)
- [HEART](#)
- [HEART](#)
- A closed loop , circulatory system , blood loop , supply loop
 - divided in to two loops
 - pulmonary loop , lungs loop , to lungs
 - right [heart](#) (दायाँ हृदय) , impure [heart](#)(आशुद्ध हृदय) , black [heart](#)
 - right atrium (दाया आलय)
 - venacava (आलयभ्याम्) , impure [body](#)
 - right ventricle (दाया निलय)
 - Pulmonary artery (विलयभ्याम्) , impure [lung](#)
 - systemic loop , [body](#) loop , to [body](#)
 - left [heart](#) , pure [heart](#) , white [heart](#)
 - left atrium , incoming chamber
 - pulmonary veins , pure blood , pure [lung](#) (आलयध्याम्)
 - left ventricle , outgoing chamber
 - aorta , pure blood , nice blood ((विलयध्याम्)
 - connected centrally to
 - pyramidal shaped structure called
 - [heart](#) , cor , cardia
 - walls , surfaces
 - General
 - sternocostal , anterior surface
 - base , posterior surface
 - Apex
 - Diaphragmatic , inferior surface
 - Particular
 - endothelium , endocardium
 - myocardium
 - epicardium
 - pericardium
 - visceral
 - parietal
 - borders
 - right , left , inferior , upper
 - divided

- externally by
 - grooves
 - atrioventricular groove / sulcus , coronary sulcus
 - interatrial groove
 - interventricular groove
 - anterior groove
 - posterior groove
 - crux of heart , meeting of all grooves
 - internally by
 - septum
 - interatrial septum
 - interventricular septum
 - more general
 - atrium , upper chamber , entry chamber
 - auricle
 - ventricles , lower chamber , exit chamber
 - more particular
 - right heart , impure entry and exit
 - left heart , pure entry and exit
 - connected peripherally through
 - tubular structures
 - oxygenated , pure blood tubes , vessels
 - pulmonary vein , lung vein , pure lung tube , left main entry
 - aorta , body artery , pure body tube , left main exit
 - deoxygenated , impure blood , vessels
 - pulmonary artery , lung artery , impure lung tube , right main exit
 - Venacava , body vein , impure body tube , right main entry
- धमनी
 - शिरा
 - वाहिका , रक्त वाहिका
 - हृदय , दिल
 - स्पंदन , नाड़ी
 - रक्त चाप , रक्त दाब
 - हृदय चक्र
 - आलिंद
 - निलय , विलय
 - हृदपेशी
 - धड़कन , दिल की धड़कन
 - संकुचन
 - रक्त प्रवाह
